Presented by:

Bartosz Schramm, MSc

Scientific Sales Manager
b.schramm@sablesys.eu

The Power of n & 3R's in practice:

Introduction to the **Promethion CORE** metabolism and behavior phenotyping platform – reduction, refinement, reproducibility

Seminar Topics:

- System overview and introduction
- Synchronous metabolic parameter tracing
- Energy balance and RER monitoring
- Behavioral rodent model assessment
- Data mining and visualization
- Unexpected capabilities become possible solutions
- Into the future; carbon stable isotope gas monitoring
- How can we help your research?
